

Sky130 Memory 1R1W Delivery Notes (English)

Delivery Archive

- File name: `Sky130\_memory\_1r1w\_v20260612\_1r1w.tar.gz`
- Delivery version: `v20260612\_1r1w`
- Scope: only the configuration, code implementation, compile scripts, raw OpenRAM outputs, tool-classified views, logs, manifests, reports, and delivery notes for this requested 1R1W memory batch.
- Archive root: `/Sky130\_memory`

How to Extract

```
```bash
tar -xzf Sky130_memory_1r1w_v20260612_1r1w.tar.gz
```
```

After extraction, the content is organized with `/Sky130\_memory` as the relative root. The package excludes historical `1r1w` deliverables and does not embed the full PDK.

Target Memory List

- `sky130\_sram\_128bytes\_1r1w\_16x64`
- `sky130\_sram\_256bytes\_1r1w\_16x128`
- `sky130\_sram\_512bytes\_1r1w\_16x256`
- `sky130\_sram\_1kbytes\_1r1w\_16x512`
- `sky130\_sram\_16kbytes\_1r1w\_16x8192`
- `sky130\_sram\_48bytes\_1r1w\_6x128`
- `sky130\_sram\_128bytes\_1r1w\_8x128`
- `sky130\_sram\_256bytes\_1r1w\_8x256`
- `sky130\_sram\_96bytes\_1r1w\_24x128`
- `sky130\_sram\_128bytes\_1r1w\_32x32`
- `sky130\_sram\_512bytes\_1r1w\_32x128`
- `sky130\_sram\_2144bytes\_1r1w\_134x128`
- `sky130\_sram\_4096bytes\_1r1w\_256x128`

What Is Included

- `VERSION`: version tag for this 1R1W delivery.
- `configs/memory\_matrix.yaml`: requested 1R1W memory matrix.
- `src/OpenRAM-stable/compiler/modules/replica\_column.py`: patched source implementation for the `netlist\_only` 1R1W flow.
- `scripts/generate\_compile\_scripts.py`, `scripts/postprocess\_and\_report.py`, `scripts/run\_all.sh`: generation and post-processing scripts.
- `scripts/compile/\*.sh`: 13 standalone compile scripts for the requested 1R1W memories.
- `work/openram\_configs/\*.py`: OpenRAM configs for this 1R1W batch plus shared `sky130\_sram\_common.py`.
- `work/openram\_builds/v20260612\_1r1w/`: raw OpenRAM outputs per memory (`./lib/.sp/.lvs.sp/.html`, etc.).
- `outputs/<tool>/v20260612\_1r1w/<mem\_id>/`: archived views grouped by tool.
- `logs/v20260612\_1r1w/`: batch logs and DC/Genus `.lib` smoke-check logs.
- `manifests/v20260612\_1r1w/`: machine-readable manifests and script inventory.
- `reports/v20260612\_1r1w/`: project report, these delivery notes (Markdown/PDF), and the complete directory tree.

Implementation and Scope Notes

- This package keeps only the 1R1W-related implementation and deliverables for this request.

- Physical backend views such as `LEF/DEF` are intentionally excluded; this release is closed under `netlist\_only` for frontend, verification, synthesis, DFT, and power-analysis usage.
- Missing-item flags in the manifest remain the authoritative traceability source for omitted physical views.

Traceability

- Source: `ryan@192.168.49.140:/Sky130\_memory`
- Package time: `2026-06-12 21:14:59`
- Total files: `435`
- Total size: `122.1 MB`
